

PRODUCT DESCRIPTION

Cleanrex EK is an ecological, non-toxic, environmentally friendly, low-volatile, modern washing agent based on dibasic esters. It contains specially selected surfactants. It removes remains of paints, varnishes, pigments and resins as well as other industrial contaminants. It does not emit toxic vapors and has a delicate, pleasant smell. Free from aromatic hydrocarbons, halogens, hydrofluorocarbons, and no carcinogenic and mutagenic substances. It does not contain water.

TYPICAL APPLICATION

It is a universal preparation for cleaning heavily soiled surfaces with high dirt absorption.

It is designed for cleaning devices and machine parts, cleaning tanks and floors.

The content of appropriately selected solvents allows for cleaning difficult to remove deposits, varnish residues, pigments, printing inks, resins and adhesives.
